

## Montour Run Report Called Best in State

The Consulting Engineers Council of Pennsylvania has recognized the "River Conservation and Land Use Plan for the Montour Run Watershed" as the best study of its kind in a statewide competition. The report earned the Year 2000 Honor Award for Studies, Research and Consulting Services. KCI Technologies served as lead consultant on the project and was joined by Mizerack Towers & Associates Inc. and Campos Market Research in preparing the plan for the Montour Valley Alliance.

Consultants collected data during the 18-month study, which they incorporated into computer generated maps illustrating the natural and cultural resources of the 37-square-mile watershed.

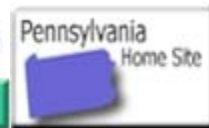

A final summary map presents their recommendation — to create a protected strip of land buffering Montour Run and its tributaries, which include Meeks Run and McClaren Run.

Communities that occupy portions of the watershed — Findlay, Moon, North Fayette, Robinson and Coraopolis - received copies of the final report.

<> Copies of the report are available by calling 412 264-5354 or by writing to HOLT, P.O. Box 741, Coraopolis, PA 15108. (Source: Moon Record, 1/18/00)
